

STEEL PLATES

ATT steel plates are made of 2 [mm] thick stainless steel. They are resistant to any damages and breakages that occur in any industry or transport. Having considered the highest quality and aesthetics standards that need to be kept by our products, as well as hygienic and ecological requirements imposed by e.g. food industry, we introduced anti-corrosion, aesthetic and durable stainless steel products.

APPLICATION

- heavy industry plants,
- food industry plants,
- production halls,
- warehouses, storage yards,
- printing houses,
- loading ramps,
- foundries, steel plants.

ADVANTAGES

- high durability,
- safety,
- lack of work connected to floor renovation,
- technical advice during the whole order processing time,
- installation on Customer's request.
